MODERN *Classics*

Opposites not only attract, they even make interior design really exciting. Classics are reinterpreted, colour concepts freshly combined. The result? A lively home, elegant and homely at the same time.

LIGHT LIVING

Open and friendly, with pastel colours and light wood – this trend invites you to feel good at home with its Scandinavian lightness. The overall design is discreet and exudes harmony and cosiness.

USED NOVELTY

This is how creative, lively, and playful interior design can be.
The used look meets ornamentation, faded tones meet powerful colours.
But the most important thing: It doesn't have to be perfect.

The passion for wood is in our nature.

Those who deal with wood every day develop a special relationship with nature. The respectful handling of this fascinating raw material has always been the basis of our work. It's evident in the resource-efficient processing as well as in the finished product. For example, we only use timber from regional, sustainable forestry – our cork is also certified. We deliberately do not use plasticisers or PVC. All flooring is free of harmful substances, even the decorative print of our flooring is based on water-soluble dyes. For this reason, we have been awarded numerous national and international environmental certificates. And healthy living also speaks for our flooring: Anyone who has ever experienced the atmosphere of a room with EGGER Flooring will understand our passion for wood.

Which type of flooring is right for you?

Whether you will enjoy your flooring for a long time depends not only on its appearance. First, consider in which room the flooring is used and how. Our robust Design Flooring is the best choice for heavily used areas such as the kitchen and hallway. In the bedroom, the Comfort Flooring with sound and thermal insulation creates cosiness. Our Laminate Flooring gains points with its wide range of decor options for your individual living style. Its five different board formats provide the perfect backdrop for a wide variety of room sizes. For bathroom and toilet, however, we recommend a moisture-resistant solution: our Aqua+ Laminate or the Design Flooring. And, last but not least, the budget determines whether you opt for beautiful, everyday flooring or for special properties. But so much is clear: with an EGGER Flooring you make the right choice.

EGGER HOME
Design Flooring | Green*Tec*

Even if you do not know today what your flooring will have to withstand tomorrow, you can sit back and relax. After all, the EGGER Design Flooring is made for living and not just an ornament. Its authentic wooden appearance becomes a stylish eye-catcher in the room, while its durable, lightfast surface ensures that you can enjoy a flawless sight for a long time. Whether in a heavily used hallway, the kitchen or any other room: our Design Flooring is always a safe choice.

Robust, water-resistant, natural.

Can take anything

Whether it's a chair leg or rainy weather, Design Flooring simply lasts longer. The pressure-resistant flooring with shape stability and a micro scratch-resistant surface simply stays beautiful.

Resists moisture

If water gets to the Design Flooring, no need to worry. It's water-resistant, anti-slip and therefore the ideal flooring for bathroom, kitchen or the conservatory.

Creates a healthy climate

Our flooring with a natural feel-good factor is made up of 90% renewable raw materials, the wood comes from sustainable forestry and the underlay from recycled cork.

COMFORT FLOORING

Feel naturally comfortable with cork.

Decor: **Viego** | EHC022

Decor: **White Fortland Oak** | EHC023

Comfortable living begins with the right flooring.

Imagine coming home and immediately feeling this pleasant feeling of cosiness and security. With the EGGER HOME Comfort Flooring you can experience this special moment each and every day. Finished with two comfortable cork layers, our feel-good flooring radiates warmth and comfort. And thanks to its sound-absorbing properties, it's wonderfully suitable for children's rooms, bedrooms and all rooms where you want to enjoy a little quiet moment away from everyday life. Living can be so comfortable.

Decor: **White Fortland Oak** | EHC023

Warm, soft, quiet.

Heat storage

As soon as you enter the room, you feel the cosy atmosphere. The flooring feels warm and comfortable as the cork stores heat in millions of small air cells.

Barefoot area

Just take off your shoes and walk barefoot. The elastic cork layers transmit a gentle, soft feeling and invite you to sit comfortably on the floor.

Quiet zone

If you like it quieter: The two cork layers and special environmentally friendly varnishes literally swallow the sound in the room and create a quiet ambience.

Aqua+

Relax, it's just water.

Laminate flooring in the bathroom? Of course. Our Laminate Flooring with Aqua+ technology reliably keeps water off. Thanks to the moisture-resistant HDF swell barrier+ coreboard and the sealed surface, it offers a highly aesthetic solution for kitchen, bathroom and hallway. So if water gets on the floor or the steam cleaner is necessary: no worries.

Floor board formats, colour tone, sorting.

Or simply: Flooring with wow effect.

Even with simple means they add to your rooms that certain something. Select the flooring decor and design with its colour the mood in the room – from light and vivid to dark and cosy. The floor board format helps you to underline the impression the room makes: Emphasise generous space ratios with long, wide floor boards, small spaces appear larger with short, narrow floor boards. And with the sorting – that is, the characteristic grain and texture of the decor – they calm or enliven the spatial image.
