

Bio Plantella Calcium for Tomatoes

Organic calcium leaf fertilizer for the prevention and treatment of physiological diseases of tomatoes and other vegetables.

ADVANTAGES:

- Heals bud rotting on tomatoes and other vegetables.
- Has a triple action - as biostimulant, fertilizer and corrector for calcium deficiency.
- Amino acids act as plant biostimulant and enable better transfer of calcium and other trace elements into the plant.
- Calcium prevents the fruit cracking on tomatoes and bitter pit on apples and improves the storage capacity of fruit vegetables.

PACKAGING:

250 ml
