

# BIO PLANTELLA GEL AGAINST SNAILS

Completely natural mechanical protection  
of plants against all types of snails and slugs.  
Biodegradable, safe for children and pets..

## ADVANTAGES:

- Natural composition makes it completely safe to use.
- Biodegradable quality prevents negative effects to the environment.
- High stability in various weather conditions provides long-lasting protection up to two weeks.
- Excellent moisture resistance makes it effective at the highest snail activity.
- Possible application even on vertical surfaces enables pest control of hanging baskets, entrances, ...

## USAGE:

**BIO**  
**Plantella**

## COMPOSITION:

NaCl 6%, corn starch

## DESCRIPTION:

The Bio Plantella Gel against Snails is a colorless, odorless, non-toxic gel that forms a barrier which protects plants from slugs and snails.

## DIRECTIONS FOR USE:

Flip cap open and apply product through nozzle, forming a continuous barrier completely enclosing the area requiring protection (approximately 20 cm from plants).

Use Bio Plantella Gel against Snails when they are active. Renew the protection when necessary.

Apply directly onto ground or any other hard surface. Close the cap after use. If the hole on the packaging clogs wash it with cold water.

1 l suffices for up to 50 m of barrier.

## Packing:

1 l, 12 per pack, 48 packs on pallet

## TESTED EFFICACY:

Our products are the result of years of knowledge, proven research and technological innovation. Their efficacy has been tested and validated in scientific laboratories.
