

Effect Cockroach Trap

Effect®

Contains:

- 1 adhesive house
- 1 foodgrade lure

Effective natural protection against cockroaches that is completely safe for humans and warm-blooded animals.

The Effect cockroach trap contains no insecticidal active compound. The roaches are attracted by the lure and they get stucked on the inner layer of the trap. Because there is no active ingredient, the Product is not harmful for children and pets.

The product can be used for the control and monitoring of different species of cockroaches, such as *Blatella germanica* and *Blatella orientalis* all year. It is suggested to use the product indoors on the floor behind objects, under wall corners...

Advantages

- Complete natural protection
- Effective long term protection
- Safe for people and warm-blooded animals
- User-friendly and simple to use
- Unscented
- Does not contain insecticides

Directions for use:

For better cockroach control is suggested to put more traps per room; put traps also near insect entrances. Once applied the lure it is effective for three months.

Packaging: 1 bait, 24 pieces per carton board; 2304 pieces per pallet.
