**Basic Product Description**

Belong among alkaline button batteries. Designed primarily for products requiring long stamina at room temperature, such as: watches, calculators, electronic games, remote controls and more.

Their shelf life is up to 3 years and they can operate at temperatures between 0 °C to +45 °C.

**Technical Description**

chemical constitution

alkaline

## Product sheet

category/series	Alkaline cell
type	LR44 (AG13, LR44, LR1154, V13GA, PX76A)
voltage	1.5 V
possibility of charging	no
capacity	110 mAh (discharge load 6.2 kOhm)
dimensions	11.6 × 5.4 mm
weight	2.0 g
operating temperature	-10 °C to +60 °C
max. shelf life	3 years
price for quantity	price per 1 pc
packaging	5 pcs, blister
warranty period	2 years
