Dimensional data are measured according to EN ISO 4671. Working and bursting pressures are detected according to EN ISO 1402.

Weight and roll length tolerance is ±5%. Working and bursting pressures tolerance is ±10% and refer to the hose only.

The data mentioned above refer to use at room temperature (+ 23 ° C).

FEATURES

- ✓ Hose for pressurized food liquids, fruit juices and drinks with an alcohol content of up to 50°
- ✓ Flexible PVC hose with high strength polyester reinforcement.
- ✓ Three-layer hose
- ✓ Smooth surface

MATERIAL COMPLIANCES
