

# RATIMOR<sup>®</sup> PLUS

GLUE

The Ratimor glue trap for rodents in the form of a glue book is a ready-made product without added poisons used for mouse and rat control. It is suitable for use indoors, in basements, bicycle sheds, storage areas, kitchens and all agricultural buildings, especially where the use of rodenticide traps is limited.

#### Advantages:

- No poison
- No odours
- Peanut aroma
- Easy to use
- Ready for use

#### Directions for use:

Remove the protective film and carefully open the glue book. Place the Ratimor glue book on the area with signs of rodent activity. For better efficiency, the trap should be placed next to a wall and the openings through which the rodents can enter the room. Check the glue book regularly and reuse it or replace it with a new glue book, if necessary.

Do not expose the product to rain or direct sunlight. Use it only in areas not accessible to children and pets. Avoid contact of the glue with the skin. If the glue comes into contact with the skin it can be removed with vegetable oil, lukewarm water and soapy water.

#### Storage:

Keep the product in the original packaging in a dry and well ventilated place. Store away from food, drink and animal feedstuffs. Keep out of the reach of children, pets and birds.

#### Procedure for disposing the residue of the preparation and the empty packaging:

Dispose as municipal waste.

#### Packaging & transport packaging:

- 1 glue book ➡ 72 pcs / package; 3.168 pcs / USA pallet
