

# BIO PLANTELLA THYMI

100 % natural plant spray based on Thyme and Juniper strengthens the plants and repels a wide range of insects.

## UNIQUE ADVANTAGES:

- Effective solution against aphids, whitefly, thrips and other soft bodied insects and juveniles.

## ADVANTAGES:

- Natural repellent in spray form – ready to use.
- Can be used on ornamental plants, vegetables, fruit trees and vines.
- Suitable for indoor and outdoor use.
- No waiting periods.

## USAGE:

## COMPOSITION:

*Thymus vulgaris* extract 5%, *Juniperus communis* extract 1%.

### DESCRIPTION:

100 % natural repellent without any added chemicals. The oil of *Thymus Vulgaris* consists of thymol, carvacrol and numerous monoterpenoids while the oil of *Juniperus communis* contains chaperone and  $\delta$ -cadinene.

The combination of active substances results as a very effective insecticidal solution.

### DIRECTIONS FOR USE:

Ready to use, without additional preparation or dosage – just shake the bottle and spray the plants. Use at the first appearance of pests and continue to spray repeatedly 2 times at an interval of 3 days.

In case of rain spray the plants again the following day. For best results spray in the morning or evening when slower drying is improving the efficiency.

### IDENT / Packing:

- 52145 / 500 ml, 12 per pack, 50 packs on pallet

### TESTED EFFICACY:

Our products are the result of years of knowledge, proven research and technological innovation. Their efficacy has been tested and validated in scientific laboratories.
