

PLANTELLA LIQUID IRON

Mineral fertilizer for prevention of iron deficiency in plants and soil.

UNIQUE ADVANTAGES:

- Simple dosage with bottle cup in a form of a measuring cup.

ADVANTAGES:

- Mineral fertilizer for prevention of physiological diseases, caused by iron deficiency.
- Liquid form appropriate for both foliar and root absorption.
- Easy dosage and use.

USAGE:

COMPOSITION:

Fe (iron): 6 % m/m (water soluble, in sulphate form).

DESCRIPTION:

Mineral fertilizer is suitable for treatment and prevention of iron deficiency in plants. Iron deficiency occurs more often in heavy soils. In case of iron deficiency the leaves turn yellow and chlorosis appears.

DIRECTIONS FOR USE:

Liquid iron can be used for preventing disease in garden vegetables, ornamental plants, fruit trees and field produce.

Use during the vegetation period. Shake before use.

Watering: dissolve 35 ml of fertilizer in 2 liters of water and water 2 m² of surface.

Foliar use / leaf spraying: dissolve 12 ml of fertilizer in 2,5 liters of water.

IDENT / Packing:

- 50044 / 250 ml, 15 pcs in box, 98 boxes on pallet
- 50233 / 1 l, 12 pcs in box, 45 boxes on pallet

TESTED EFFICACY:

Our products are the result of years of knowledge, proven research and technological innovation. Their efficacy has been tested and validated in scientific laboratories.
